

STAT 40780 Assignment 1

Question 1 B

- In the command prompt, change working directory to the location of the isOrth.cpp file. Then using the command "R CMD SHLIB isOrth.cpp", the file is compiled into isOrth.dll for our R script file.

Question 2

- In the command prompt, change working directory to the location of the SignC.cpp file. Then using the command "R CMD SHLIB SignC.cpp", the file is compiled into isOrth.dll for our R script file. This process is similar for SignCA2.cpp.
